(Send a jpeg image of your work for promotion using attachment via email.)

Please give a workshop description: Putting passion and emotion into a painting is far more important than just making a copy of your subject. Learn to capture the particular mood of the moment and express yourself in a bold and colorful way and while capturing the beauty and spontaneity of the subject. Learn to fill your canvases with color and boldness. My goal as an instructor is to give my students the foundation necessary to express themselves.
